

# Cedarmere Elementary School

*Learning with and from each other*

# 26.2

*A computer for me a computer for you*

## **What is 26.2?**

**26.2 is a program designed to have two benefits for our students.**

- To raise money for technology advancements for the school.
  - Students get sponsored for each mile that they walk.
  - When students complete the marathon, they collect the money from their sponsors and return the money to school along with their mile log sheet.
- To challenge students to travel the distance of a marathon (26.2 miles) in the remaining months of school.
  - Students can walk in school or at home.
  - After walking students should record their total miles on their mile log sheet.
  - If walking at home, please have an adult sign your chart.

**When the students complete the marathon and turn in their money they become a member of the 26.2 club.**
