

Woodbridge Elementary School and Towson University Partnership

Woodbridge is very fortunate to be a Professional Development School in cooperation with Towson University. This means we have the opportunity to be mentors for those college students who are going to be our future educators. This is our 8th year working with Towson University. Currently, we have six interns from the Elementary Education Program from Towson. The interns work cooperatively with our classroom teachers to learn how to deliver instruction that meets the needs of our students. The interns have been adding classroom responsibilities each week. From August to December, the interns are here 2 days a week. They will return at the end of January for full time teaching where they will be here every day for two, 8 week student teaching experiences. The students really benefit from having an additional set of hand in the classroom. This is a wonderful learning experience for students, interns and teachers to work together here at Woodbridge Elementary School.
